Summary

Accomplished MERN Stack Developer with proven expertise in building full-stack applications and RESTful web APIs using MERN stack and other JavaScript technologies. Proficient in React.js development, including component design, optimizing data retrieval, and manipulation using Node.js. A collaborative team player with excellent communication skills and commitment to staying updated with emerging trends.

Skills

- MERN Stack Development (MongoDB, Express.js, React.js, Node.js)
- RESTful API Implementation
- Python Programming
- MySQL Database Management
- PHP Development
- HTML5, CSS3, and Responsive Web Design

Education and Training

MCA
Atmiya University
Rajkot, India
Computer Science And Application,
08/2023

BCA
Atmiya University
Rajkot, India
Computer Science And Application,
05/2021

Experience

imbuesoft LLP   *12/2024 to Current*
MERN Stack Developer | Rajkot, IN

- Developed and deployed scalable web applications using MERN stack, integrating MongoDB and SQL databases for optimal data handling.

- Designed and optimized complex queries with MongoDB Aggregation Framework and SQL joins to enhance data retrieval efficiency.

- Implemented RESTful APIs in Node.js with Express, facilitating seamless CRUD operations across MongoDB and MySQL/PostgreSQL.

- Migrated data between SQL and NoSQL environments during system upgrades, ensuring data integrity and backend flexibility.

- Created dynamic admin dashboards in React.js, delivering real-time analytics from MongoDB and SQL databases through custom backend logic.

Intern   *12/2023 to 12/2024*
Intern | Rajkot, IN
